| LOW COST | Pure software solution |
| EASY TO USE | User-friendly graphic interface with push-button toolbar |

MINICOM
www.minicom.com

From the makers of Classnet™!
The world's leading computer based training solution.

AristoClass™

"We train over a thousand employees annually, and Minicom's educational solutions have given us the ability to make the training session more efficient. Trainers can accomplish more in each session because students stay focused on their individual work".

Todd S., Instructor, Sprint

AristoClass™ a quantum leap forward in computer based training, makes learning more exciting and more effective. The ideal solution for schools, colleges, universities and corporate training centers - it contains a wealth of exceptional features. See for yourself!

As Easy to Use As ABC

AristoClass™ features a user-friendly graphic interface and easy to use push-button toolbar. A multilingual interface lets you operate AristoClass™ in your own language.

Unified Control

Instructors in the modern computerized classroom often need to simultaneously manage multiple applications, all requiring different interfaces. AristoClass™ eliminates this bewildering juggling and concentrates all control via a single interface, saving time and hassle.

Global Observation

In the world of AristoClass™, nothing goes on without the teacher's knowledge:

- Follow student progress by monitoring their screens.
- View active thumbnails.
- Monitor and control multiple student screens simultaneously.
- View active task of each student.
- Personalize student icons.

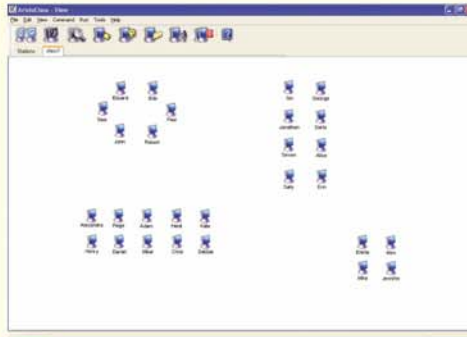

Complete Classroom Interaction

Demonstrate concepts or show a student's solution by broadcasting any screen in the class to any other.

Total Teacher Control

AristoClass™ gives the teacher full command over the class:

- Help a student solve a problem by taking control of any student computer.
- Blackout student screens for undivided student attention with the dark function.
- Transmit files to/from student computers such as distributing and collecting tests or grades.
- Run a program simultaneously on all student computers with one click of the teacher's mouse.
- Limit student's work to a specific application.
- More than one teacher can control one or multiple classes.

Multiple Ways to Communicate

Communication between teacher and student is critical.

AristoClass™ provides a variety of methods:

- Two-way text exchange (CHAT).
- Two-way audio exchange. Advise a student discreetly or address the entire class directly.
- Messaging system.
- On-line feedback.

Monitor Internet Options

With AristoClass™, teachers are in full control of student activity on the Internet:

- Broadcast a URL to students.
- Guide student navigation.
- Limit students to authorized web sites.
- Block student download

Secure Environment

Of primary concern in a learning environment is protection against vandalism. AristoClass™ prevents tampering thanks to its multiple security features including:

- Login and password procedures.
- Centralized booting/shutdown.

Manage Your Entire Campus

While most CBT packages can control only one class, AristoClass™ lets you manage an entire campus! Control hundreds of students in dozens of classes:

- Teach students in different rooms simultaneously from a remote location anywhere on the LAN.
- Save class configurations and download them in any room.
- Simultaneous multiple teacher control in the same classroom.

Simple to Install and Upgrade

Installing AristoClass™ is easy. The single AristoClass™ CD is all you need! Simply install the program on to the computers. From a single station, configure the classroom and set some global parameters. Easily update your AristoClass™ version through the Web! All it takes is a few minutes.

System Requirements

| | |
|-----------------------------|--|
| Teacher Computer | Pentium 3 - 700 Mhz or higher with: W2K, XP, W2003 128 MB RAM or higher recommended 10MB free Hard disc space PS/2 / USB KB / MS |
| Student Computer | Minimum Pentium 2 - 450 Mhz, 128 MB PS/2 / USB KB / MS |
| Network Requirements | TCP/IP Protocols 10/100 Base T |
