 Title - Doctor's Office Console Control
 No - 011

ENVIRONMENT	Offices; Manufacturing facilities; Distribution facilities; Hospitals
MINICOM PRODUCT	2 Smart KVM Extenders
CHALLENGE	A doctor would like to have access to patient records from a KVM console in his office and a separate KVM console in his examination room. The server is located 50 ft. from both rooms.
MINICOM SOLUTION	Cascade 2 Minicom Smart KVM Extender Transmitters to the server located in the secure closet. 1 Extender Receiver connects to the KVM console in the doctor's office and the 2 nd Extender Receiver connects to the KVM console in the examination room.
BENEFITS	2 KVM consoles can be connected to 1 CPU. Both consoles can be 360ft. from the CPU and only 1 CAT5 cable is needed for each pair of Transmitting and Receiving units.
